# ghaf GASOLINE ENGINE OIL

## PLATINUM

ULTIMATE PERFORMANCE  
FULLY SYNTHETIC MOTOR OIL

SPECIFICATIONS : API 5W40 SM/CF

Ultimate performance and protection for high performance cars. Best suited for consumers seeking high output from their engines under extreme conditions. Suitable for European, Japanese, American Sport Utility Vehicles & Cars.

## BRONZE

HEAVY USAGE ENGINE PROTECTION  
MINERAL MOTOR OIL

SPECIFICATIONS : API 10W30 SL/CF

Engineered for excellent protection against heat stress, sludge formation and superior defense for exhaust catalyst poisoning. Provides excellent resistance to oil thickening and delivers longer engine life. Suitable for American Sport Utility Vehicles & Cars

## GOLD

HIGH PERFORMANCE  
SEMI SYNTHETIC MOTOR OIL

SPECIFICATIONS : API 10W40 SM/CF

Excellent performance against wear & tear. Provides longer drain interval and helps increase engine life. Complete peace of mind for consumers when using this engine oil. Suitable for European, Japanese, American Sport Utility Vehicles & Cars.

## TORQUE

TRIPLE PROTECTION TECHNOLOGY  
2 STROKE MOTORCYCLE OIL

SPECIFICATIONS : JASO FB

Protects piston & piston rings giving extended engine life & reduces engine maintenance costs. Best suited to Motorcycles, Scooters, Power Boats, Three wheelers & light 2 stroke passenger vehicles needing pre mix.

## TREK

TRIPLE PROTECTION TECHNOLOGY  
4 STROKE MOTORCYCLE OIL

SPECIFICATIONS : JASO MA

Smooth gear changes and extended life as it reduces friction. Suitable for all types of driving conditions (city, highway and harsh). Compatible for all motor cycles running on lead free gasoline and catalytic converters.

## SILVER

ADVANCED ENGINE PROTECTION  
MINERAL MOTOR OIL

SPECIFICATIONS : API 20W50 SL/CF

Engineered for excellent protection against heat stress & sludge formation. Provides excellent resistance to oil thickening and gives longer engine life. Suitable for European, Japanese & American cars & Sport Utility Vehicles.

## AQUA

TRIPLE PROTECTION TECHNOLOGY  
2 STROKE MOTORBOAT OIL

SPECIFICATIONS : JASO FB

Reduces engine deposits, engine wear, tendency for pre ignition, smoke & exhaust port fouling. Protects piston & piston rings giving extended engine life & reduces engine maintenance costs. Best suited to Motorcycles, Scooters, Power Boats, Three wheelers & light 2 stroke passenger vehicles needing pre mix.

# qorm DIESEL ENGINE OIL

**QORM PLATINUM SUPER**  
SUPER HEAVY DUTY DIESEL ENGINE OIL  
SPECIFICATIONS : C14/SJ

Advanced oil for diesel engine that ensures maximum protection and cleanliness of the engine thanks to its advanced technology to prevent sediment, it also ensure long periods of time to change the oil and it is suitable for all heavy and light engines.

**QORM PLATINUM**  
SUPER HEAVY DUTY DIESEL ENGINE OIL  
SPECIFICATIONS : API 15W40 CH4/SJ

Offers high level of engine performance with superior engine protection due to its superior lubricants technology. Provides long drain intervals under rugged conditions. Gives longer engine life due to low engine wear & tear. Suitable for heavy duty engines & Stationary engines performing under rugged conditions.

**QORM GOLD**  
HEAVY DUTY DIESEL ENGINE OIL  
SPECIFICATIONS : API 15W40 CF4/SH

Very high quality diesel engine oil meant for severe use in heavy duty diesel engines including turbo charged engines needing extended drainage intervals. Optimum protection from bore polishing and wear. Longer viscosity management from excellent soot control. Can be used in heavy duty engines, mixed fleet & stationary engines.

**QORM SILVER**  
HIGH QUALITY DIESEL ENGINE OIL  
SPECIFICATIONS : API 30/40/50 CF/SF

High quality technologically advanced engine oil meant for heavy duty vehicles & stationary engines. Suitable for extreme hot conditions & for rugged use. Designed especially for use in light turbo charged diesel engines.

## arctic

### PRE MIX LONG LIFE COOLANT

SPECIFICATIONS : 50% MIX

Excellent engine cooling under harsh desert conditions, Excellent rust & corrosion protection, Suitable for long life continual usage. Suitable for all gasoline & diesel engines.

## maticpro

### AUTOMATIC TRANSMISSION OIL

SPECIFICATIONS : ATF DX III

Latest technology in automatic transmission. High transmission life because of better chemical additive technology. Helps in smooth gear changing. Used in all types of cars, trucks & heavy duty vehicles.

## vigor

### HEAVY DUTY GEAR OIL 90

SPECIFICATIONS : GL - 4

High quality, giving smooth gear changes, Prevents rust & corrosion, Keeps gear box cool under hot conditions. Suitable for cars, trucks & stationary engines.

## suprema

### HEAVY DUTY GEAR OIL 140

SPECIFICATIONS : GL - 4

High quality mild extreme pressure gear oil, gives extended life to gear & bearing operating under severe conditions. Smooth gear changes, Prevents rust & corrosion, Keeps gear box cool under hot conditions. Suitable for cars, trucks & stationary engines.

## samr GREASES

### PRIMERA

NLGI grade No 2

Lithium Based Grease

High quality lithium grease suitable for wide range of temperature & applications made from very high quality base oils. It minimizes wear under normal bearing load conditions & resists water wash out. Pumpable and can be dispensed by any greasing system. Can be used in high performance wheel bearings, chassis point & water pump bearings. Can be used for multiple applications and good mechanical stability.

### PRIMERA SUPRA

NLGI grade No 3

Lithium Based Grease

High quality lithium based grease for multifunctional purposes. Helps in prevention of wear during usage at temperature up to 130 Degree Celsius. Resistance to water washout & excellent extreme pressure properties. Can be used in plane & anti friction bearings operating under high load conditions in various heavy duty industrial applications.

## BRAKE FLUID

### ULTIMAX Brake fluid

SPECIFICATIONS : DOT 4

High quality synthetic brake fluid with high wet boiling point, keeps the brake line system cool under rugged desert conditions. Suitable for all Japanese, US and European cars, motorcycles and commercial vehicles disc or drum hydraulic brake and clutch systems.

## huwait HYDRAULIC OIL

SPECIFICATIONS  
32/46/68

Excellent engine cooling under harsh desert conditions, Excellent rust & corrosion protection, Suitable for long life continual usage. Suitable for all gasoline & diesel engines.
